**RE: Regular Committee Meeting**  
**February 1, 2006, 2:30pm**  
**Resolution 06-015**  
**Relating to Water Quality Certification for "Woods at Ahuimanu"**

**Dear Committee Members,**

As a long time resident of Kahalu'u, 23 years, and the area that is being effected by the proposed development, I feel that it is imperative that community input be taken and considered.

It is my concern that the Department of Health is not fully aware of the conditions at the upper section of Ahuimanu Road in respect to rainfall and drainage. As an example there is a constant stream of water leeching from my neighbor's yard, flowing down Melekula Road, virtually 365 days a year.

I am in favor of Resolution 06-015 and it is my hope that the Committee members agree.

**Mahalo,**

**Randy Havre**
