RECEIVED

Subject: Need to pass Resolution 06-075!

Aloha mai.

I have lived on the North Shore of Oahu my whole 28 years of life. In the future, I plan on raising a family on the North Shore so that my keiki will also learn to appreciate the uniqueness of Oahu's North Shore Hawaiian country, and everything it naturally has to offer. Please do not allow outsiders to change our way of life forever. Please do not allow outsiders to destroy our precious natural resources, which once lost are lost forever. There are more than enough resort destinations for tourist and residents alike to choose from. The arguments for "creating jobs for the community" is weak. My mother raised us three kids as a waitress at Turtle Bay from its beginning.....its was hardly enough. Service jobs (which is the only type of jobs that could be made available if more resorts were built) do not provide enough for locals to get ahead. I speak from experience. I know what its like to live without electricity, a telephone, transportation up and down Pupukea, a fridge, good food. We were often without these things because my mother's service job at Turtle Bay did not and could not provide enough. Turtle bay always has openings. Where is the need for my resort jobs on the North Shore?

There are more than enough reasons for the passing of Resolution 06-075.

Please consider all involved, and not just those with deep pockets. Resolution 06-075 NEEDS to be passed.

Sincerely,
Arianne Lerner
