Subject: re: C&C of Honolulu Bill ~~90~~ Bill 2

Dear Council Member,

This has to be one of the most ridiculous and extravagant bills ever proposed by the city council. It will only increase the income for the water department. The cost for condominium buildings will be very expensive to install separate water meters for each apartment, and will benefit none of the owners. If time was spent to reduce the number of new building permits, it would control the water consumption. Please do not sign this bill into law. Thank you.
