Re: **AGAINST BILLS 8-9**

Dear Chairperson Rod Tam:

Thank you again for your valuable service to our very special communities. In keeping with the Aloha spirit that we all crave we believe that draconian measures that impact our ability to offer vacation services to tourists will have a very detrimental impact on vacation travelers.

We know that there are a few vacation rental operators that abuse every rule that applies to good business practice. However, the vast majority of vacation rental homeowners and bed and breakfast providers take very seriously their responsibilities to co-exist thoughtfully and respectfully with their neighbors.

Please do not support the bills that negatively impact this important contribution to the greater good. ***Placing location addresses on advertising will create a very serious security issue for property owners.***

Thank you again.

Sincerely,

C. Mitchell Hart
Lisa M. Hart
