

A BILL FOR AN ORDINANCE

RELATING TO PLANT NURSERIES.

BE IT ORDAINED by the People of the City and County of Honolulu:

SECTION 1. Purpose. The purpose of this ordinance is to amend the Land Use Ordinance definition of "crop production" to clearly state that the growing of nursery crops is included under this use category, which would clarify that the growing of plants outdoors in containers or within a greenhouse is permitted in the AG-1 Restricted Agricultural and AG-2 General Agricultural zoning districts.

SECTION 2. Section 21-10.1 Revised Ordinances of Honolulu 1990, as amended ("Definitions") is amended by amending the definition of "crop production" to read as follows:

"Crop production" means agricultural and horticultural uses, including production of grains, field and indoor or outdoor nursery crops, vegetables, fruits, tree nuts, flower fields and seed production, ornamental crops, tree and sod farms, associated crop preparation services and harvesting activities.

SECTION 3. New ordinance material is underscored. When revising, compiling or printing this ordinance for inclusion in the Revised Ordinances of Honolulu, the revisor of ordinances need not include the underscoring.
