Subject: homeless in the parks

FEB 10 8 27 AM '09

We need to eliminate the homeless in Kapolani park and <sup>RECEIVED</sup> other public parks. Tourists are finding it disgusting to see people laying around, making their homes in parks, not the intended use of them. We used to stop in San Francisco on our return trips from the mainland but no longer do, the main reason was that the City did nothing to get the homeless off d the streets, sleeping in doorways, panhandling, etc. If nothing is done here, is will have the same effect.
