

My name is Darren Stacy Holbrook and I support the wording in City Councilmen's Okino's version of Bill 4.

The section 15-24, Mobile electronic devices clears up any concerns that I previously had with the bill.

I believe the intent of this bill to promote traffic safety by controlling cell phone use and texting by drivers.

Many states have used similar language and I feel it would best fit into the Hawaii bill as well.

Thank you for your time and service.
