

Regarding bill No. 4 to be heard on Monday, 19 April 2009.

Respected members of the City Council;

My name is Reg White. I am vice president, project development for Star of Honolulu Cruises and Events. We respectfully ask you to mark the difference between the use of cell phones and radios for contact while driving. Both amateur radio operators and commercial drivers need the authorization to use their radiotelephones while their vehicle is in motion and all hands free forms of other communication must be authorized for use when a vehicle is in motion. Such activities as text messaging while operating any form of motor vehicle must be strictly forbidden by the law.

Respectfully,

Reg White
