**Subject:** SALT LAKE BLVD WIDENING PROJECT  
**Importance:** High

We know, sometimes the folks we elect to represent our interests in Honolulu Hale forget we're here waiting patiently. My neighbors (Neighborhood Board 18) and I have waited over 25 years for the completion of our Salt Lake Boulevard widening project (Project Number: 1989123).

The subject uncompleted one-mile stretch of Salt Lake Boulevard, between Maluna Street to Ala Lilikoi Street remains, unsafe for pedestrians, motorists and residents who use this route. Drainage is poor, there are no sidewalks and street needs to be widened but you know this. Erosion and flooding occurs each time there is a storm but you know this too.

I urge you to justify funding for the long overdue completion of this project to your colleagues, during the current session, by reminding them we've heard the tired excuses. Based on our recent Puuola Road widening(?) project experience, we know many more months will go by before we finally enjoy Salt Lake Blvd from end to end but the point is to begin now not procrastinate more. The money just isn't there won't cut it: Other road improvement projects can get in line; Salt Lake Boulevard has been kicked around longer.

Thank you for your loyal service.
