Comments (use back of page or additional pages as necessary):

Upon careful review of the Environmental Assessment, I believe this is a must-have project for Haleiwa Town. This project will help keep residents and visitors safer while walking in town. The short term impacts of this project are minimal at worst and do not outweigh the numerous benefits gained.

I have personally walked this stretch of Kamehameha Hwy. and parts are quite unsafe. I have seen people use this roadway to avoid standing water, parked cars, etc. causing extremely hazardous conditions. This project will help reduce foot traffic on the roadway making Haleiwa Town more pedestrian friendly.

I fully support the Haleiwa Town Improvements, i.e. the sidewalk project.

Signature Gregory E. Hungerford, DC Date 5-11-05
