Please do not do anything so foolish as to throw more money into this rail project. It is sheer craziness. The city does not have the money to do the necessary everyday things and now you want to spend more money to fund a rail that is destined to fail. I hope you have the courage to stand up to the mayor and vote not to allow the rail to go forward without the commitment of the federal government funds. We need the federal monies to be committed to the project before anything more is done.
STOP WASTING MY MONEY!
